TECHNICAL SKILLS

❖ Programming Languages/Technologies/Frameworks:

- Python, Javascript, SQL, HTML, CSS.
- Visual Studio Code, SQLite, GitHub, Postman API.
- Flask, Pytest, NumPy, Pandas, Matplotlib, Seaborn, Pyspark, REST APIs

TECHNICAL EXPERIENCE

❖ Tech Lingo, Changers Tech with endorsement from Spotify Okt 2023 — Nov 2023 Stockholm

Attained unique insights into the tech industry through an intensive six-week program. Explored AI, networked with industry leaders, and gained behind-the-scenes insights of tech companies, benefiting from Spotify's endorsement and partnership.

❖ Business Development Intern, Yrkesyta Jan 2024 — Mar 2024 Stockholm

- Identify partnership opportunities and conduct market analysis.
- Develop business strategies and research industry trends.
- Analyze competitor offerings and support go-to-market plans.

PERSONAL PROJECTS

❖ Flask-book-management-api

Created a lightweight Flask API alongside an SQLite database to manage books and reviews efficiently. Thoroughly tested with Postman for reliability. It offers simple endpoints for CRUD operations on book data.
